EDUCATION

B.Tech. in Computer Engineering , SVKM's MPSTME NMIMS University	CGPA: 3.65/4.0
CBSE 12th Board (2021) , Sir Padampat Singhanian School	93.8%
CBSE 10th Board (2019) , Sir Padampat Singhanian School	91.6%

PROJECTS

K-SOS Mobile App	July '24
- Achieved 41,000+ downloads with mobile app having a panic button and admin analysis dashboard for real-time location tracking. Deployed for Rajasthan Police for security and daily analysis of 1.5 lakh students in Kota. - Technologies used: Flutter, Firebase, React, OpenStreetMaps API; app featured in 10+ national media outlets like Aaj Tak, Etv Bharat, Dainik Bhaskar, etc. and Ranked no. 3 in Parenting on Playstore (41K+ Downloads)	
Inventory Management using Autonomous Drones	Sept '23
- Developed a fully autonomous hex-copter drone system for inventory management in a warehouse using Pixhawk, RaspberryPi, Ardupilot, ReactJS, Python, and Firebase. - Achieved All India Rank 4 at Godrej's Dronelog'23 in IIT Bombay Techfest 2023 with a minimal latency of 3ms.	
Way2Me Mobile Application	Oct '23
- Created a school vehicle tracking system for more than 100 schools using Kotlin and Firebase, contributing to a 55% increase in client acquisition. - Delivered interactive dashboard to users for real time updates for their 10,000+ students' locations.	
Statistical Optimization Python Library (Open-Source)	Nov '23
- Built a Python-based toolkit for advanced statistical analysis and optimization using libraries such as NumPy, Pandas, SciPy, Scikit-learn, Matplotlib, Seaborn, and Pulp 2.3 - Published toolkit on PyPi with over 1000+ downloads: ORTipy2	

EXPERIENCE

Aignosis , Software Engineer Intern	Jan '25 - Mar '25
- Researched and developed 8 out of 15 crucial AI features to detect Autism in toddlers. - Developed interfaces using ReactJS, python and conducted 500+ AI integrated autism tests - Brainstormed and generated backend flow from testing to seamless report generation for Aignosis's 1500+ Clients.	
Amazon , Amazon ML School Learner	July '24 - Aug '24
- Selected among top 3000 students out of lakhs of participants. - Worked on 3 real world applications of machine learning deployed at Amazon.	
Optevo , SDE Intern	Aug '22 - Oct '23
- Created website layout/user interfaces using ReactJS for 5 sub projects. - Integrated data from various back-end services (aszx) and databases, achieving a 25% reduction in latency. - Contributed valuable ideas to enhance product features through 2 brainstorming sessions per month.	

SKILLS

Languages	C, C++, Python, JavaScript
Android Development	Android Studio, Flutter, Dart
Web Development	HTML, CSS, JS, ReactJS, NodeJS, Tailwind CSS, Bootstrap
Machine Learning	Tensorflow, OpenCV, YOLO, Matplotlib, Seaborn, Keras, OpenAI, Tesseract, VectorDB
Backend & Frameworks	MySQL, Django, Firebase(NoSql)
Data Analytics	MATLAB, SaS, Tableau, Numpy, Pandas
Development Tools	WIX, WordPress, Git, Github, Oracle Apex
Cloud	Oracle Cloud, Google Cloud

EXTRA-CURRICULAR ACTIVITIES

- Rank 1 in Google DSC's Codekraken 2023 Hackathon, surpassing 48 teams nationwide.
- 50 Days Badge on Leetcode.
- AIR 19 in TOSS DSA Challenge 2023.
- Semi Finalist in Tata Crucible 2023.
- Head, Techfest NMIMS '24.
